"I look forward to leading such a fine group of individuals for the upcoming year," said Albert E. Heiles, Jr., CLU, ChFC of Pacific Life. "Our leadership is a reflection of our membership. Our commitment to protecting our clients' assets will continue through the continuing education and level of awareness we provide to our members and the public."

The Estate Planning Council of Pittsburgh was created in 1969 as an outgrowth of the Life Insurance and Trust Council founded in 1936 in Pittsburgh. The Council is an interdisciplinary organization for professionals involved in all aspects of estate planning. The group's mission is to foster greater understanding of the roles and relationships of these professionals and to encourage closer cooperative efforts by which to serve clients in the field of estate planning. The organization also provides a forum in which to discuss current issues and keep abreast of trends in the estate planning field.

Individuals to be considered for membership in any category should be significantly involved in some aspect of the estate planning process and such participation must be demonstrated to the satisfaction of the Board of Directors.
